Capability Statement

ABOUT 1AARDVARK

At 1Aardvark, our tight-knit team of seasoned engineers, intelligence analysts, and defense industry experts thrive tackling complex challenges head-on. With a passion for innovation, we specialize in developing cutting-edge solutions to bolster national defense capabilities. Leveraging our expertise in software, algorithm, and system engineering, we craft bespoke solutions tailored to enhance mission success. We are ready to deliver the advanced equipment and strategic support needed to ensure mission excellence in today's evolving landscape of national security threats.

CORE COMPETENCIES

1Aardvark specializes in developing and delivering bespoke solutions to the warfighter. We are a small team of passionate engineers that prioritize your mission. Whether your domain is land, air, sea, space or cyber space – we are ready to partner with you and take on your most difficult challenges.
